Museum of Impossible Forms is a cultural space, located in Kontula, Helsinki. It is a contested Space and it represents a contact zone, a space of unlearning, formulating identity constructs, norm-critical consciousness and critical thinking. Impossible Forms are those that erase and facilitate the process of transgressing the boundaries/borders between art, politics, practice, theory, the artist and the spectator. For 2019-2020, Museum of Impossible Forms operates under the curatorial theme of '[The Atlas of Lost Beliefs \(For Insurgents, Citizens and Untitled Bodies\)](#)'

Currently, Ali Akbar Mehta and Marianne Savallampi are appointed as Artistic Directors and handle the development and production of the M{if} annual programming.

Events at the Museum of Impossible Forms are completely free and accessible to attend without prior booking.
